

Environmental Policy

Aligned with our commitment to deliver Operational Excellence, it is the policy of Proserv to strive towards best-in-class environmental standards globally, surpassing the minimum requirements of all regulatory and industry bodies relevant to Proserv's environmental aspects.

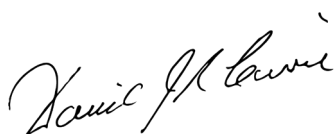

Proserv's senior management are fully committed to conducting business in such a way that will protect the environment and prevent pollution at all of Proserv locations, and are responsible for providing an overall Environmental Management System framework which is aligned to the requirements of ISO 14001:2015 and capable of successfully delivering Proserv's environmental objectives.

Proserv fully commits to:

- Determining environmental compliance obligations and ensuring operations are completed in accordance with these. Proserv is committed to operating in compliance with all relevant environmental and energy legislation within the context of the organisation
- Reducing energy usage and the associated carbon footprint relating to its operations
- The continual improvement of the Environmental Management System in order to enhance environmental performance, reducing the reliance on the use of natural resources
- Taking action to eliminate or reduce any potentially adverse environmental impacts relating to Proserv's activities, products and services
- Promoting environmental awareness amongst suppliers, contractors and partners
- Ensuring suitable and effective means of incident control, investigation and reporting.

Proserv recognises that the proactive efforts and commitment of all of its employees in environmental matters is fundamental to the improvement of the company's performance. All Proserv employees are empowered and duty bound in this process as part of their day to day responsibilities and company objectives.

To ensure the ongoing suitability and continual improvement of our environmental performance, this policy will be reviewed on an annual basis to ensure it remains current and in line with future activities. The policy will be communicated to the workforce at all Proserv locations and be available to all interested parties.

David Currie, CEO
